Borough of Wildwood Crest
6101 Pacific Avenue
Wildwood Crest, NJ 08260

Dear Residents of Wildwood Crest:

As part of our ongoing efforts to modernize the local energy grid and enhance electric service for our customers, Atlantic City Electric will soon begin work in Wildwood Crest to improve service reliability for nearly 7,000 customers in the Borough.

This work, which is scheduled to begin in early April and be completed by the end of May, includes the replacement of 15 wood utility poles in various locations in Wildwood Crest. We also will be installing 9 new advanced devices called reclosers, which can automatically reduce the number of customers impacted if an outage does occur.

To ensure the safety of local residents and the community, Atlantic City Electric's contractor, Riggs Distler, will work closely with Wildwood Crest Police Department for any necessary traffic control, or lane or road closures.

For additional information, contact Atlantic City Electric's external affairs manager Ronnie Town at 609-463-3805 or veronica.town@atlanticcityelectric.com.
