October 20, 2017

Dear Customer:

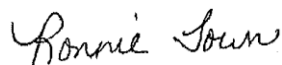

At Atlantic City Electric, we work hard to provide safe and reliable service for our customers and the communities we serve. This includes routinely enhancing our electric distribution system with new, modern equipment to support the growing needs of our customers.

During this reliability improvement project, Atlantic City Electric will be starting this project next week, Tuesday, October 24, weather permitting. We will be working in this area for approximately 3 weeks on 100 block of Rosemary Road between New Jersey Avenue and Park Boulevard.

In order for our crews to work safely, we will require no street parking on the South Side of Rosemary Road from 9:00 a.m. until 4:00 p.m.

If you have any questions, please contact me via email at veronica.town@atlanticcityelectric.com or phone at 609-463-3805.

Sincerely,

Ronnie Town
External Affairs Manager
