TOTAL CASES IN CAPE MAY COUNTY	314					

Public health officials continue to investigate and contact all individuals who may have had exposure to individuals that tested positive for COVID-19. Cape May County Department of Health continues to encourage all residents to conduct preventive measures, practice social distancing, and follow Governor Murphy's Executive Orders.

COVID-19 appears to spread from person-to-person mainly with close contact (less than 6 feet), but may also be spread by a surface that has the virus and then touching one's mouth, nose, or possibly one's eyes. The Center of Disease Control states that the spread is through respiratory droplets produced when an infected person coughs or sneezes.

Face Covering Requirement

To lessen overcrowding, all "essential retail" stores will only be permitted to allow up to 50 percent of their approved capacity inside. All customers and employees will be required to wear face coverings while inside the store, and businesses must supply employees with masks, coverings and gloves.

What type of mask do I need?

It is recommended that the general public wear cloth face coverings. A cloth face covering is a material that should cover the nose and mouth. It can be secured to the head with ties or straps or simply wrapped around the lower face. It should fit snug on each side of the face and not be loose fitting with gaps. It can be made of a variety of materials, such as cotton or linen. A cloth face covering may be factory-made, sewn by hand, or can be improvised from household items such as scarfs, bandanas, T-shirts, sweatshirts, or towels. The cloth face coverings recommended are not surgical masks or N-95 respirators. Those are critical supplies that must continue to be reserved for healthcare workers and other medical first responders.

The Department of Health wants to remind everyone that the use of a face covering is an extra step in the prevention of getting or spreading COVID-19. Please continue to maintain social distancing, wash your hands often, avoid touching your face, and only leave home for essential tasks or work.

Call your healthcare professional if you have concerns about COVID-19 and your underlying health conditions. Stay up to date on the current situation as it evolves.
