

**BOROUGH OF WILDWOOD CREST  
GREEN TEAM  
Notes – 24 April 2019  
Borough Hall, 6101 Pacific Avenue**

As no quorum was present, a regular meeting of the Green Team was not held on 24 April. Chairman Wilson and Secretary Rogers were present at 2 p.m., Team member Franco entered later.

There were several issues discussed to be brought before the Team at the meeting of 22 May: Regarding the CFMP, points 1,2,4,9,10,11 and 16 were highlighted by the chairman. We are in our second year of the CFMP and should be taking action.

The Borough has received a certificate of approval for the CFMP; this will be framed and displayed.

An employee of the Public Safety Dept is considering becoming the Borough's tree expert and attending training.

Our presence at the Wellness Fair June 20 was discussed, with ideas for what we can do at the fair.

Secretary Rogers reported the Planning Board was very interested in the concept of incorporating electric car charging stations into future planning. Joe will talk to Mickey McLaughlin about possibly meeting with a subcommittee of the Planning Board to talk about electric car charging stations as part of the NJ Ave revitalization plan.

Deborah Rogers  
Secretary
